PLATINUM SPONSOR

Volvo Construction Equipment & Rokbak are this year's Platinum Sponsor. As long serving CeeD members they have gained a lot of insight and support from the organisation and from the member network, to drive real operational improvement and efficiencies across our business.

"It is vital that as a community we recognise the real achievements gained from our continuous improvement, across many key areas such as Net Zero. However, it is more important that we take the time to reward and share the success of the many hard working, innovative people across our organisations."
