

DIGITAL MAKING SHOWCASE

27th June - 1st July

FUTURE CRAFT: Digital Making and Modern Craft

Mon 27 June

Do you work in a creative industry? This seminar looks at the history, introduction, application and innovation with a digital technology focus in the creative industries in Scotland and internationally. MAKLab will discuss a number of case studies alongside two craftspeople who are using digital technologies to improve their practice.

CONNECTED ENVIRONMENTS: Sensors and the Internet of Things

Tue 28 June

In a world of ever increasing digitally connected devices, Tuesday's session will focus on how everyday devices can provide valuable data and how you can use that to engage with your clients. This will be demonstrated through a range of live sensors and devices installed around the Inverness Campus.

IDEA TO ENTERPRISE: Digital projects building resilient communities

Wed 29 June

On Wednesday, MAKLab will look at how remote communities have used digital technology to help contribute towards their local economy. If you live in a rural area, then this is the talk for you to find out how you too can strengthen your community through digital.

DISRUPTIVE DEVICES: Empowered users and maker culture

Thu 30 June

If you have an interest in developing and producing your own digital devices to use, then today's speakers will be here to provide advice on how you can make this possible. The session will cover everything from 3D Printing to Open Source computing.

FUTURE BUILDING: Innovations in the construction industry.

Friday 1 July

Our digital makers' week comes to a close with attention placed on the construction industry. The guest speakers will talk about how digital is changing the industry from new innovations to adapting working practices for the digital era. Alongside this, there will also be the chance to get hands on experience with technologies used in the industry including 3D Scanning, Digital Manufacturing Tools and Aerial Photometry.

Each day will run as below:

11:00 - 16:00 - Open for drop-in

16:00 - 17:00 - Daily Seminar

17:00 - 18:30 - Technology Demonstrations
